

NovaCart — Frequently Asked Questions

Q1. Can I return an opened laptop?

A laptop may be returnable only if it meets the applicable product-page and return-policy conditions. Opening the package does not by itself establish eligibility; activation, usage, damage, missing accessories, and category-specific rules matter.

Q2. How long does standard delivery take?

Usually 3–7 business days after dispatch, subject to location and carrier conditions.

Q3. Can I change my address after ordering?

Usually only before packing. Contact support immediately if the order has not yet been handed to the carrier.

Q4. When will I receive my refund?

After an approved return passes inspection, NovaCart initiates the refund to the original payment method. The bank or card issuer may require additional processing time.

Q5. Does every product have the same warranty?

No. Warranty coverage varies by manufacturer and product category. The product page and warranty document are authoritative.
